

Natural Resources and Environmental Protection Cabinet
Kentucky Department for Environmental Protection
Division for Air Quality

PERMIT
Irving Materials, Incorporated
1440 Selinda Avenue
Louisville, Kentucky 40213

RE: Ready-Mixed Concrete Plant located at 692 Reservoir Rd Springfield, Kentucky

Pursuant to your application which was determined to be complete by this office on October 26, 2000, the Natural Resources and Environmental Protection Cabinet issues this permit for the operation of the equipment specified herein in accordance with the plans, specifications, and other information submitted with your application. This permit has been issued under the provisions of KRS Chapter 224.033 and regulations promulgated pursuant thereto and is subject to all conditions and operating limitations contained herein. Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits, licenses, or approvals required by this Cabinet and/or other state, federal, and local agencies.

<u>POINT OF EMISSION</u>	<u>AFFECTED FACILITY</u>
01 (1)	Cement Silo Loading
(-)	Fly Ash Silo
02 (2)	Cement Weigh Hopper
(-)	Aggregate Weigh Hopper
03 (-)	Aggregate Conveyor
04 (-)	Aggregate Handling and Stockpiles
06 (-)	Drum Mixer (Wet) Truck Mix
07 (-)	Unpaved Haul Road and Yard Area

No deviation from the plans and specifications submitted with your application or the conditions specified herein is permitted, unless authorized in writing by the Division for Air Quality. Violations of the terms and conditions contained herein shall be grounds for the Department to seek revocation of this permit. All rights of inspection by the representatives of the Division for Air Quality are reserved. Responsibility for satisfactory conformance with all Air Quality Regulations must be borne by the permittee.

PERMIT – Continued

GENERAL CONDITIONS:

1. In no way does this permit relieve the company from the responsibility of controlling emissions at all times in accordance with Regulation 401 KAR 63:010, Fugitive emissions.
2. This permit shall become null and void after five years following the date of issue. Application for renewal shall be made at least six months prior to the expiration date.
3. The company shall maintain and make available for inspection by this Division all production records necessary to assure that the allowable hourly production rate will not be exceeded.
4. In no way does this permit relieve the permittee from compliance with all applicable emission and air quality standards.
5. The haul road shall be sprayed with water on a regular basis so as to comply with the requirements specified in Regulation 401 KAR 63:010, Fugitive Emissions.
6. The opacity of emissions from all affected facilities as defined in 401 KAR 59:010, New process operations, shall not equal or exceed 20% opacity as measured by Reference Method #9, 40 CFR 60, Appendix A.
7. All control devices shall be properly maintained, kept in good operating condition, and used in conjunction with their associated processes at all times.
8. Particulate emissions from the Cement Silo, Fly Ash Silo, and Cement Weigh Hopper shall not exceed 40.58 lbs./hour or 177.74 tons/year.
9. Particulate emissions from the Aggregate Weigh Hopper shall not exceed 57.86 lbs./hour or 253.43 tons/year.
10. All previous permits issued to this source at this location are hereby null and void.
